King Of Tokyo (PC) Installation and User Guide. BS, Long Beach, CA: 2019. XXXXXXXX.

SOFTWARE DESCRIPTION

This software is a personal computer version of the King of Tokyo board game.

Description

The King of Tokyo PC version simulates the physical board game on the computer. All of the movements, cards, and features of the original version will be included in the PC edition. In addition there will be new content that differs from the original such as original character designs and expansions. This virtual only content may or may not require additional monetary transactions to unlock.

Benefits and Value

Values and benefits provided by the BS software are:

- Virtual, no physical parts
- Ease of use
- Greater accessibility
- Rules enforced automatically

Platform Requirements

Minimum requirement of Windows 10 computer with at least 1GB of ram and 200MB of storage space.

1. Features included in KOT PC

The King of Tokyo PC is comprised of the following:

- Automated Resource, Deck, Card management
- Game rules and instructions
- Various artworks and usable characters
- Multiplayer

The KOT PC version is designed to automate and enrich the user's playing experience when playing King of Tokyo. This software is modeled after the original board game and runs on most low end Windows 10 computer.

2. Installing King of Tokyo PC

Following the process in order to install the King of Tokyo PC edition.

1. Purchase the King of Tokyo PC edition at www.BuoySoftware.com/KOTPC
2. Under the Purchases tab, select "King of Tokyo PC - Download"
3. The following file will be downloaded to your computer "KingOfTokyoPC.exe"
4. Double click the "KingOfTokyoPC.exe"
5. Read and accept the Licenses.
6. Follow the installer's instructions.

3. Menu Options

The Menu consists of the following choices

- The **Play Game** option starts the game. It will prompt the user to select multiplayer. See section 4 for information about this.
- The **View Characters** option allows the user to see all of the usable characters and their respective artwork.
- The **View Cards option** allows the user to view the various cards offered in the game as well as their artwork and effect.
- The **Exit** option closes KingOfTokyo.exe software.

4. Selecting Player Amount

After pressing the Play game button the KOTPC will prompt the user to select the amount of players. Select the icon corresponding to how many people are playing the game. The minimum is 2 players and the maximum is 6.

5. Selecting Character

After “Selecting Player Amount” the KOTPC will prompt each user to select which playable character they would like to use. Each player should individually select a character and it will designate the character as the Player for the rest of the game.

6. Player Turn

6.1 Dice Roll

During your turn you will start by rolling 6 dice. You may choose to reroll any amount of the 6 dice 2 more times. Click the reroll button to roll the non selected dice. Once all dice are selected or the player rerolled 3 times, the dice rolling phase will end. Certain cards may allow a player to roll one to two extra green dice.

6.2 Purchasing Cards

During your turn you are able to purchase Cards at any time after the Dice Roll. Select the “Purchase Card” icon, which is the Deck icon located at the top right of the screen. Once the Purchase Card icon is selected the user will see the top face up top 3 cards. Select the card you would like to purchase. By selecting the Card you will lose Energy corresponding to the card’s cost. You must have enough Energy to buy the cards or it is not allowed.

You may pay 2 Energy to reshuffle the 3 cards shown face up. Then you are able to purchase any of the cards that show up. Cards will be replaced as they are bought. You can buy as many cards as you want as long as you have enough Energy.

6.3 Using Cards

Cards are available to be used during any time of your turn. During your turn select the card icon. The card you previously purchased or own will appear on screen. Select the card you would like to use if it is a Discard card. Keep cards will stay in your hand and will be used on an as needed basis.

6.4 Smash

If the user rolls a Smash icon (footprint) on the Dice then the player will apply damage to all other monsters outside of their current location. During this time any opponent may select to activate specific Keep cards to counter the Smash.

The opponent in Tokyo may choose to exit Tokyo after the Smash. If they choose to exit then the player who just Smashed will move into the unoccupied space.

7. Ending the Game

7.1 Withdrawing / Leaving the game

At any time during the game, any user may withdraw or leave the game. Do this by pressing the ESC key then selecting “Withdraw from Game” button. Next the program will ask which player is withdrawing. Select the character that is leaving and player will be removed from the game. The game will continue with the remaining players.

7.2 Win Condition

If a player has 20 Victory Points and is not eliminated at the end of their turn then the game will conclude. The player with 20 Victory Point is the winner.

If a player dies and only one player is remaining. The remaining player is the winner.

9. Glossary

These are commonly used words and abbreviations used in this document and in the game.

Buoy Software (BS): Company that created King of Tokyo PC edition.

Buoy Software Distribution Center (BSDC): The distributing section of Buoy Software.

Discard: The cards are removed from the players Keep hand or from the faceup cards shown from the deck.

Energy: Currency used to purchase cards. Obtain from dice roll.

Heal: The player recovers 1 Heart Point for each Heal rolled on the dice.

Heart Point (HP): Health of your character. When a player reaches 0 LP Then the user is removed from the game.

Keep: These are the cards that the player purchases and keeps at all time. They may have passive effects or can be activated.

King of Tokyo (KOT): The physical board game version that this software is modeled after.

King of Tokyo PC (KOTPC): The virtual version of King of Tokyo. This refers to this software.

Personal Computer (PC): A computer owned by an individual.

Smash: Apply damage to all other monsters in the area the player is currently not residing in.

Tokyo: A specific spot on the board labeled Tokyo. All effects involving Tokyo Bay and Tokyo are applied to the monster inside these two locations. Only 1 monster can be located in Tokyo at a time.

Tokyo Bay: A specific spot on the board labeled Tokyo Bay. All effects involving Tokyo and Tokyo Bay are applied to the monster inside these two locations. Only 1 monster can be located in Tokyo Bay at a time.

Victory Point (VP): The currency that is used to determine when a player wins. If they reach 20 Victory Point and are still alive when turn ends then the player with 20 Victory Points win.
